

VARIANCE APPLICATION

Our Zoning Ordinance is the mechanism through which we encourage the most appropriate uses of our lands, protect the rural character of our community and its natural resources and help to ensure a sustainable community for future generations.

Instructions:

1. Review the Zoning Ordinance to determine the zoning requirements for your parcel. The entire ordinance can be accessed on our Township web site at www.duluthtownship.org. A printed copy may be obtained via the web site, or you may purchase a copy at the Town Hall, 6092 Homestead Road, Duluth, MN 55804.
2. Complete the application. You need to supply all required information. Incomplete, inaccurate, or invalid applications will be returned to you.
3. A check must accompany your application in order for us to start processing it. The fee schedule is posted on the Web site and is attached to this application.
4. An application must be signed by the property owner(s) and dated.
5. In the event that a person other than the owner wishes to apply for a variance on a particular parcel, the owner(s) must consent to the application and sign as a co-applicant.
6. If the variance is granted, there will be a \$46 recording fee.

SECTION VI. REASONS FOR THE VARIANCE

The Planning Commission shall always act with due consideration to promote the public health, safety, and welfare, encourage the most appropriate use of land and conserve property value, and shall permit no structure, building or use detrimental to a neighborhood.

When in the opinion of the Planning Commission a variance may result in a material adverse effect on the environment, the appellant may be required by the Planning Commission to demonstrate the nature and extent of the effect.

It shall be the burden of the applicant to demonstrate sufficient hardship to sustain the need for a variance. Absent a showing of hardship as provided in Minnesota Statutes and the Town Zoning Ordinance, the Planning Commission shall not approve any variance. The Planning Commission may impose conditions in the granting of variances to insure compliance and to protect adjacent properties and the public interest

The following table lists criteria which must be met in order to be granted a variance. Please fill in the table answering each criteria as to the reasons you should be granted a variance. The Planning Commission will use this information as well as testimony from you at the Public Hearing in making their decision.

Criteria For a Variance

1. The Planning Commission may authorize a variance from the terms of this Ordinance which will not be contrary to public interest where, owing to special conditions, a practical difficulty or particular hardship would be created by carrying out the strict letter of the Ordinance, and when the terms of the variance are consistent with the spirit and intent of this Ordinance and with St. Louis County's and Duluth Township's Land Use or Comprehensive Plan, if any. "Hardship" as used in connection with the granting of a variance means that the property in question cannot be put to a reasonable use under the conditions allowed by this Ordinance; the plight of the landowner is due to circumstances unique to his property not created by the landowner. Economic considerations alone shall not constitute a hardship if a reasonable use for the property exists under the terms of this Ordinance.

What special conditions, practical difficulty or particular hardship would be created if you were not granted this variance?

Can your property be put to a reasonable use without a variance, if not why not?

(Use additional sheets if necessary)

2. The variance, if granted, will not alter the essential character of the locality. No variance may be granted that would allow any use that is prohibited in the zoning district in which the subject property is located.

Will your variance request fit in with the essential character of the neighborhood? If so, how?

(Use additional sheets if necessary)

SECTION VII. DETAILED SKETCH

If you wish, use the attached page to provide a detailed sketch of your property. Or, provide your own.

A detailed sketch with measurements showing dimensions of lot, structures, driveways, septic mounds, other disturbed surfaces, wetlands, streams, and lakes must be shown.

In addition, display all setback requirements for the existing structures and the proposed construction.

SECTION VIII. PROPOSED STRUCTURE OR MODIFICATION TO EXISTING STRUCTURE

Insert a “V” and the proposed dimension for the item on which you are requesting a variance
